History of the Northern Pacific Railway Depot

The role of the Northern Pacific Railroad in the founding and development of the Bismarck community was significant. The NP Depot remains as a symbol of that importance in our city.

- The city known as Bismarck today was formed in 1872 as “Edwinton” after Edwin Ferry Johnson, a chief engineer for the Northern Pacific Railway company back when the railroad reached the eastern banks of the Missouri River. The name was changed less than one year later, honoring German chancellor Otto von Bismarck, in an effort to attract German immigrants.

- Fun Facts:

- Completed in December, 1901, at a cost of \$33,601.
- Cass Gilbert designed the MN state capitol building and the leftover marble from that project was sent to Bismarck and ground up and used in building the Bismarck depot structure.
- By 1916, the Northern Pacific Depot was serving 24 passenger trains daily.
- Listed on the National Register of Historic Places in 1977.

Edwinton Brewing Company Highlights:

Edwinton Brewing is excited and proud to be North Dakota's first and only collaborative brewer. Collaborative brewing means we bring the concept of best practices of 600 years of brewing to Bismarck.

We're doing the same thing as every brewery, but the process is being completed in two different locations. Our Brewmaster lives in New Zealand (not to be confused with Zeeland, ND). Our system is made by DME one of the world's premiere brewing equipment manufacturers. Brian invented the system to give the world his awesome beers on a local level. Brian works with our local team Monte, Alan and Chris to ensure the best consistent beer is being brewed. Our system is hooked up to the internet to be monitored 24/7 by Brian and his team of 30 experts living all around the world. Every aspect of the brewing process is closely monitored by our local team and the global team. The system is very high tech, sanitary and self-contained to ensure our beer is never contaminated. The system has many alarms and checks programmed into the main brain of the system to ensure we brew the best beer possible. By being a collaborative brewer we have the benefit of using the best ingredients from around the world and the expertise of award winning BrewMasters working with our local team.

Our wort is brewed in small batches and packaged by highly skilled operators.

No added preservatives, additives, or flavors. The result is 100% fresh, natural, world-class wort. Brian Watson didn't invent brewing, he perfected it. Brian works with our local team by training them and mentoring them to ensure we produce great beer every time.

BISMARCK OVERVIEW

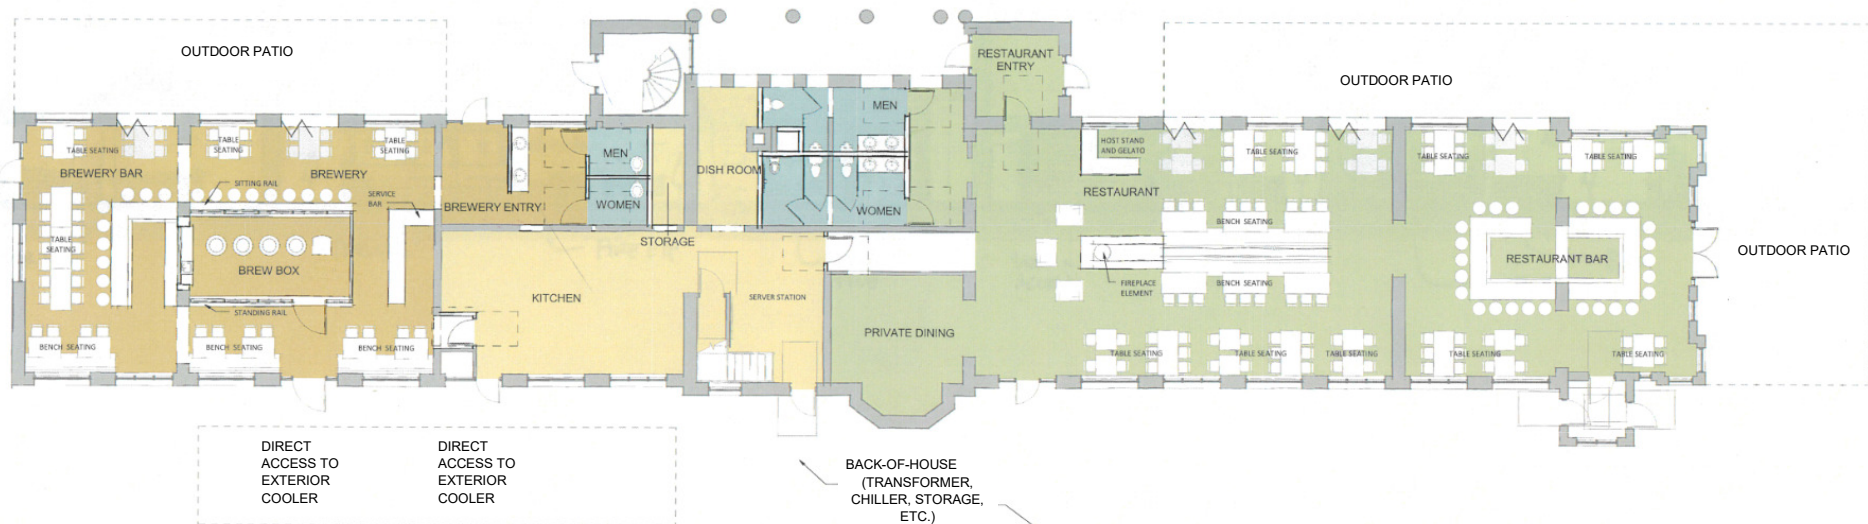

The capital of North Dakota, Bismarck is a hub of culture, history and shopping. Bismarck is the second-most populous city in North Dakota with a metropolitan population of 132,142 in 2017. In 2017, Forbes Magazine ranked Bismarck as the seventh fastest-growing small city in the United States.

The city has developed around downtown Bismarck, the center of historic development. The city's largest shopping center, Kirkwood Mall, is located near downtown with several other major national retailers located near the mall. Bismarck's two hospitals, CHI St. Alexius Medical Center and Sanford Health, are also located downtown.

Bismarck is home to some of the state's best activities. Attractions like the Dakota Zoo, the North Dakota Heritage Center and State Museum and Fort Abraham Lincoln are popular among visitors. One of Bismarck's best features, the Missouri River, offers a scenic setting for boating, fishing, and relaxation.

Five colleges and one university are located in Bismarck, contributing to the city's economy and workforce. The University of Mary is a four-year university with 3,600 students; Bismarck State College is a two-year public college, and a member of the North Dakota University System with 3,800 students.
